Symposium der Liebig-Vereinigung GLYCOSCIENCE

Tuesday, 1. September 2009

Chairman: Prof. Dr. Thisbe K. Lindhorst, Christian-Albrechts-Universität zu Kiel

- | | |
|---------------|--|
| 14:20 – 14:50 | Auzanneau, F.-I., Guelph/C
Synthesis and molecular modeling of dimLex and LeaLex fragments and analogues: approaches to anti-cancer vaccines |
| 14:50 – 15:25 | Wittmann, V., Konstanz/D
Chemical Approaches to Probe Carbohydrate-Protein Interactions |
| 15:25 – 15:40 | Schwekendiek, K., Kiel/D
Switching carbohydrates: A photochemical approach to conformational control of glycoarrays |
| 16:20 – 16:50 | Flitsch, S., Manchester/GB
Glycosylation reactions – from biocatalysis to medical applications |
| 16:50 – 17:10 | Hoffmann-Röder, A., Mainz/D
Structural Analogs of Mucin-type Carbohydrate Antigens and Glycopeptides |
| 17:10– 17:25 | Boysen, M., Hannover/D
Sweets for Catalysis |

The Symposium will be held in English.
