## **§ 1 Introduction**

KNCV and GDCh are both national learned societies with comparable constitutional aims and obligations. Many of their hitherto national fields of activity such as education, publication, information of the public, consultation with political and administrative authorities are becoming more and more European issues; many of their members will not reside during education and professional life in their home country. Therefore the learned societies want to offer benefits and services to the members and the public that reach beyond their national borders.

They agree to introduce - on a reciprocal basis - the International Associate Membership Scheme and to cooperate in further areas.

## § 2 Benefits for KNCV Members

A member of KNCV will be granted - at no extra cost - the following benefits at the same conditions, prices etc. as ordinary personal GDCh members (or student members if applicable):
