

The Career Days are organised by the European Young Chemists Network (EYCN) with the support of the Gesellschaft Deutscher Chemiker's Career Service.

European Young Chemists Network (EYCN)

The Network brings together national groups of young chemists within the EuCheMS framework to discuss issues of common interest and new initiatives. It promotes interaction among chemists in European industry, academia, professional institutions and European government bodies.

Through networking, young chemists contribute to the development of European initiatives, including scientific programs in chemistry and molecular sciences as well as other scientific and technological areas, for example nanoscience, life science, environmental science, electronics.

Gesellschaft Deutscher Chemiker

The Gesellschaft Deutscher Chemiker (GDCh) is the largest chemical society in continental Europe with members from academia, industry and other areas. The GDCh supports chemistry in teaching, research and application and promotes the understanding of chemistry in the public.

The Career Service of the GDCh supports employers in filling their openings in the field of chemistry. It creates contacts between job seekers and providers and mediates the placement of chemists and scientists in related areas for all work areas dealing with chemistry. In addition, the GDCh Career Service organises special events such as job markets at important trade fairs or conferences and workshops for job seekers.

EuCheMS Career Days Creating a Successful Career

12-15 September 2016
6th EuCheMS Chemistry Congress
Sevilla

www.euchems-seville2016.eu

EuCheMS Career Days

Welcome to the 6th EuCheMS Chemistry Congress and Career Days events. The Career Days are open to all registered participants in the EuCheMS Congress.

Monday, September 12th

10:45 - 11:45	Share your love for chemistry: Innovative ideas in Science Communication Fernando Gomollón-Bel
11:45 - 12:45	Resume added value Cristina Todasca
12:45 - 14:00	Lunch - CV Clinic* with support from RSC Careers
14:00 - 15:00	Project Management by Experience: A non-traditional approach to a traditional topic Anne McCarthy
15:00 - 16:00	Understanding the pharmaceutical ABC Frédérique Backaert

Tuesday, September 13th

10:45 - 11:45	The Third Way: Becoming an Academic Entrepreneur Javier Garcia-Martinez
11:45 - 12:45	Designing scientific presentations - a toolbox for researchers Frédérique Backaert
12:45 - 14:00	Lunch - CV Clinic* with support from RSC Careers
14:00 - 15:00	Young researchers & scholarly publishing Jan Willem Wijnen
15:00 - 16:00	Experimental Design, Documentation and Troubleshooting Jackie O'Neil
21:00 - 23:00	Science Café Location: Don Juan de Alemanes Sevilla Details: www.eycn.eu

* previous registration required: www.eycn.eu

Wednesday, September 14th

10:45 - 12:45	EYCA (Ph.D. level)
12:45 - 14:00	Lunch - CV Clinic* with support from RSC Careers
14:00 - 16:00	EYCA (post doc level)
16:30 - 17:15	EYCN: 10 years connecting young chemists. What comes next? Fernando Gomollón-Bel
17:15 - 18:15	Chemistry in your glass: The science of wine flavour + tasting Ricardo Lopez

Thursday, September 15th

10:45 - 12:45	Funding workshop EuCheMS/EYCN/DFG (German Research Foundation)	IYCN kick-off event IUPAC/EYCN/FACS

Premises

Lectures: Room Lisbon

CV Check: Room Rome

Career Networking Reception: Foyer in front of room Madrid

(subject to change, for latest update see www.gdch.de/careerdays)

Monday, September 12th 19:15 - 21:15

Career Networking Reception

Are you looking for a post-doctoral position and would you like to know which grants are available? Or would you like to start your career with a company? Or what careers might be open to you in other countries? You won't want to miss the Career Networking Reception!

Not only will a beer and a snack await you there after a long day, but jobs on offer at research institutes and companies will be posted. Representatives of scientific organisations, institutes and scientific societies – easily identifiable by their eye-catching name tags – can tell you all you need to know about grants and services. Make beneficial contacts and get useful information about jobs, career paths and career entry opportunities first-hand, from the people who know.

Want to fill a trainee position? Or are you looking for doctoral or post-doc candidates? Your job ad will be posted on posterwalls. Of course you are warmly invited to attend yourself and talk with young scientists just beginning their careers. We will provide you with a name tag that will catch the eye of prospective candidates and identify you as a potential future employer. Tell interested parties in person about your institute and your vacant position.
