

AARHUS  
UNIVERSITY

The intelligent Advanced Materials Group (Prof. Dr. Anja-Verena Mudring) at Aarhus University is looking for

**three permanent academic employees**  
(lab managers, PhD required)  
to manage

the materials science  
analysis (incl. X-ray diffraction) and synthesis laboratories

the optical spectroscopy and  
organic electronics lab

the wet chemistry synthesis  
and soft materials characterization laboratories

and **two postdoctoral research associates** (2 year term) in

Nanomaterial Synthesis /  
Ionic Liquids

Organic Synthesis and Crystal  
Engineering (Chemistry /  
Medicinal Chemistry / Chemical  
Engineering)

**Application Deadline:** February 15, 2024

**Start Date:** upon agreement between  
April 15 – August 1, 2024
