

Professor of Chemical Biology

→ The Department of Chemistry and Applied Biosciences (www.chab.ethz.ch) at ETH Zurich invites applications for a Professor of Chemical Biology. Tenured appointments as Associate or Full Professor are foreseen.

→ The successful candidate is expected to have an internationally recognized research program in chemical biology or biological chemistry, broadly defined. ETH Zurich provides outstanding infrastructure, and a dynamic environment for research at the interface of chemistry and the biological science. The future professor will participate at all levels of undergraduate and graduate teaching in the Department of Chemistry and Applied Biosciences. In general, at ETH Zurich undergraduate level courses are taught in German or English and graduate level courses are taught in English. ETH Zurich is currently establishing a new curriculum for Chemical Biology and Biochemistry; the new professor will have opportunities to shape the establishment of this new course of study.

→ **Please apply online: www.facultyaffairs.ethz.ch**

→ Applications should include a curriculum vitae, a list of publications, a statement of future research and teaching interests, and a description of the three most important achievements. The letter of application should be addressed **to the President of ETH Zurich, Prof. Dr. Joël Mesot. The closing date for applications is 15 October 2019.** ETH Zurich is an equal opportunity and family friendly employer, strives to increase the number of women professors, and is responsive to the needs of dual career couples.
