

Scientists & Senior Scientists (Synthetic Organic and Medicinal Chemistry)

Location: Nottingham

Contract Type: Permanent, full-time

Chemists at Sygnature Discovery are at the forefront of our scientific research, driving projects from well-equipped laboratories and solving challenging problems for our clients.

You will be involved in a variety of scientific activities and will have a significant degree of input into any project you work on. As a Scientist you will independently design and implement novel synthetic routes to challenging chemical targets. As a Senior Scientist you will also drive project progress through innovative medicinal chemistry problem solving by designing novel molecular targets to address key project issues.

Key requirements:

- At the Scientist level, you are likely to have a PhD in Organic Chemistry or Medicinal Chemistry, or a BSc/MSc in Chemistry with additional drug discovery experience in industry.
- At the Senior Scientist level, you are likely to have additional drug discovery experience gained within a pharmaceutical company or CRO, or substantial relevant post-doctoral study.
- Senior Scientists will also need knowledge of practical laboratory drug discovery techniques. Project leadership experience is also desirable.
- All Scientists will have a passion for medicinal and synthetic chemistry and be confident designing and executing complex synthetic routes in a proactive and efficient manner.
- You will possess excellent verbal and written communication skills, as well as the ability to work well within a team.

In return you will receive an excellent training and benefits package, including a highly competitive salary and pension scheme. All our benefits are tailored to enhancing your experience at Sygnature as it is important to us that you share our success. We also recognise that our environment is paramount, so we foster a collaborative and supportive culture with plenty of opportunities to grow and develop, tailored to individual and business needs.

If you are interested in joining a successful, engaged and award-winning company that places its people at the heart of its business, please apply through the link including the following;

[Apply here](#)

- CV; Covering letter (briefly outlining your suitability for the role); Confirmation of your status of eligibility to work in the UK (we have the ability to sponsor employees under a Tier 2 General Visa)

You will submit your application through our trusted partners, LogicMelon. Please be assured that only employees of Sygnature Discovery will review your application and personal data.
