# GDCh CHEMISTRY PRIZES 2023

We're making chemistry visible

GDCh prizes are awarded in recognition of outstanding achievements both for chemistry and within chemistry. The awardees are selected on the basis of their scientific excellence, their ability to inspire others and their commitment to the chemistry community. In accordance with its statutes, the GDCh is committed to equal opportunities for all. We therefore expressly encourage nominations from all sectors of society (universities, public bodies, industry) and from all individuals.

Please submit your nomination and all required supporting documentation by 1 October 2022 to [www.gdch.de/nominations](http://www.gdch.de/nominations).
