

The **Chemical Protein Synthesis (CPS) Meeting 2019** will continue the successful biannual international symposium series devoted to protein chemistry broadly defined, ranging from synthetic methodology to applications in medicine and biomaterials. The 2019 symposium is the 8th edition after previous meetings in Haifa, Israel (2017), St. Augustine, USA (2015) and Vienna, Austria (2013). With the CPS 2019 the priority program SPP 1623 (www.spp1623.de), funded by the German Science Foundation, will have its final scientific meeting.
