## Welcome to the 2013 GDCh Chemistry Forum!

**Dear Colleagues,**

In its Chemistry Forum, the Gesellschaft Deutscher Chemiker (German Chemical Society, GDCh) has created an outstanding platform for the presentation of chemistry in all of its remarkable variety. Every two years this event highlights chemistry as an integrating discipline among the sciences, with numerous interfaces with high-tech fields and industrial innovation processes. From 1-4 September 2013 some 1800 participants from Germany, Austria, Switzerland their neighbouring countries and from overseas will gather in Darmstadt. In the spirit of partnership prevailing at the Forum, researchers and users, top echelon managers and up-and-comers in the field can all find their way to one another in an open, informal atmosphere. The theme of this year's forum is „Chemistry Element of Life“.

All of us can look forward to a top-notch scientific programme that addresses topics such as catalysis, materials, renewable energies, energy storage systems, biomedical research and environmental analysis. Noted speakers from industry and academia have already responded and accepted our invitation. You and your company are part of this greater community of chemists as well. By choosing the Darmstadtium, a state-of-the-art congress centre, the GDCh offers you surroundings that are ideally suited to the presentation of your products and services in an optimally attractive light. The format for events at the Forum opens up a variety of alternatives, from trade fair stands on up to employer branding. Your benefits and the basic technical data are summarised on the following page. The page after that outlines the service package you receive as a sponsor and/or exhibitor. It goes without saying that we always have an open ear for your individual wishes – just let us know what you want.

We warmly invite you to attend this beacon event for chemistry. We look forward to working together with you, and extend to you a heartfelt welcome to Darmstadt!

Dr. Gerhard Karger  
Project Manager  
GDCh Chemistry Forum

The Gesellschaft Deutscher Chemiker, with some 30,000 members working in academia, industry, the civil service, or doing independent research, is one of the largest and most prominent chemical societies in the world.

## An Overview of the GDCh Chemistry Forum

### OBJECTIVES

- Knowledge transfer
- Networking
- Paving the way to cooperation
- Open dialogue

### TARGET GROUPS

- Professionals from all areas of chemistry
- Graduates in the fields of chemistry, biochemistry, the life sciences, chemical engineering and related courses of study

### OUR SERVICE PACKAGE

- Some 1,800 participants
- An exhibition area of 2,400 m<sup>2</sup>
- More than 500 posters
- More than 300 papers presented at symposia, workshops and other events

### PROGRAMME

- Scientific lecture programme on the topics: synthesis and catalysis, materials, life sciences, energy and the environment, teaching chemistry
- Poster session
- Vendor seminars
- Two evenings for networking
- Career day
- Exhibits by industry and publishers
- Excursions to industrial and research sites
