

GCC 2015

11th German Conference on Chemoinformatics

NOVEMBER 08 - 10, 2015

TOPICS

- Chemoinformatics and Drug Discovery
- Molecular Modelling
- Protein Modelling
- Solvation
- Hot Topics (Sunday Highlights)
- Research Telegrams

The conference will reflect and highlight the new role of cheminformatics in the modern information world. It will span a wide range of subjects related to the use of computers in chemistry, pharmacy, materials science and biology; from chem- and bioinformatics to explicit modelling and from industrial applications to fundamental academic research. The scientific programme will include plenary and contributed lectures, posters and software presentations. The language of the conference is English.

We look forward to seeing you in Fulda.
